Payoff Score (0–100) estimates payout expansion potential of a horizontal sequence based on race structure. Higher = stronger structural conditions for larger returns.

Payoff Score Explanation

Payoff Score (0–100)

Payoff Score measures the structural payout potential of a horizontal wagering sequence (Daily Double, Pick 3–Pick 6

The score reflects how likely the sequence is to produce expanded returns based on:
• Field size balance (ideal near 9 starters)
• Absence of overwhelming favorites
• Distribution of competitive mid-range contenders
• Overall field strength

Higher scores indicate:
• Lower structural payout compression
• Greater upset potential within rational race design
• Stronger conditions for horizontal ticket leverage

Lower scores indicate:
• Presence of heavy favorites
• Short or imbalanced fields
• Reduced payout elasticity

Important: Payoff Score does not predict winners.
It measures economic opportunity within the betting architecture of the sequence.
